A word ladder is a classic word puzzle that involves transforming one word into another by changing a single letter at a time. Each intermediate step must be a valid word, and the goal is to reach the final word in the fewest possible steps. The concept was popularized by Lewis Carroll, who devised the game as a way to challenge and entertain readers.

For example, transforming the word "COLD" into "WARM" might look like this:

- COLD
- CORD
- WARD
- WARM

Each step changes only one letter, and all intermediate words are real.
